# Intersec 2024: Live-Attack Zone

With the strong focus of governments across the globe on the secured environment, Intersec, the world's leading security, fire and safety industry trade fair is delighted to partner with the Loss Prevention Certification Board (LPCB) in supporting and promoting third-party approvals and certification of a range of security products.

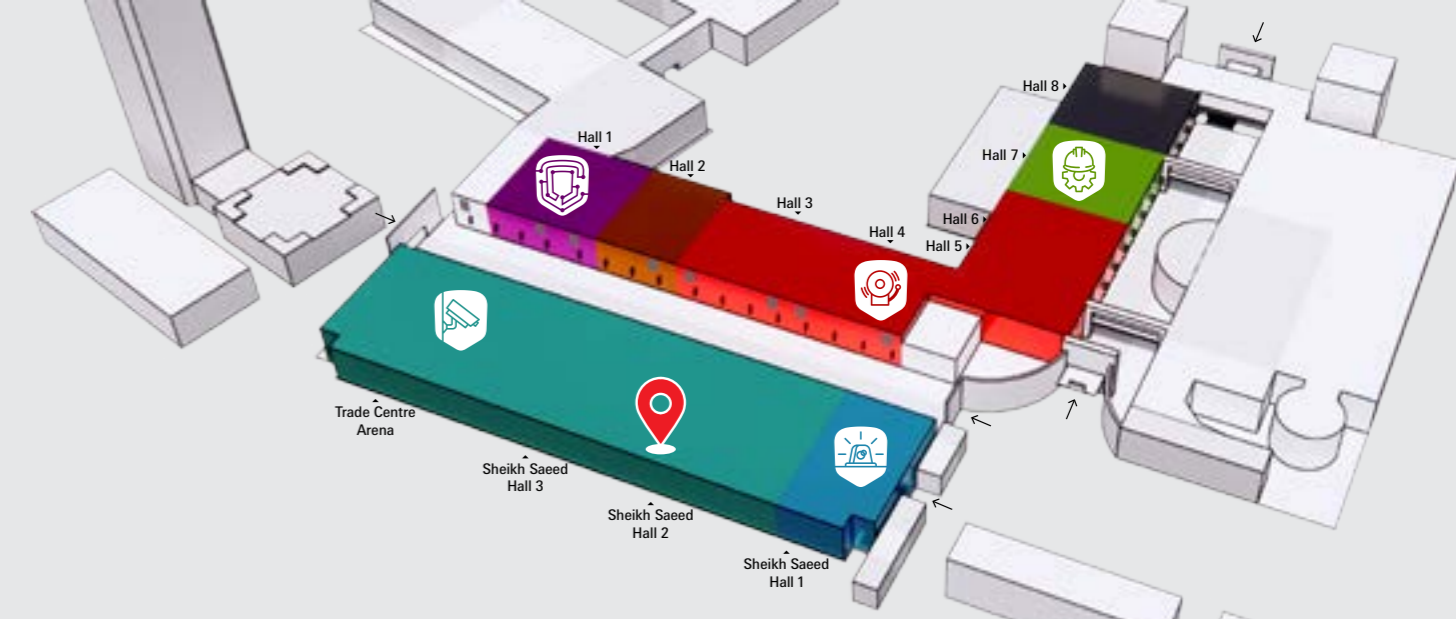

**LPCB is a globally recognised third-party certification body delivering certainty for over 150 years.**

Robust testing and evaluation of products underpin LPCB's third-party certification. This forced entry testing is renowned worldwide, and following its extremely successful introduction to the event in 2023, the Live-Attack Zone will return at Intersec 2024.

This insightful feature will provide the opportunity for visitors to witness LPCB's forced entry specialists demonstrate the capabilities and effectiveness of a wide range of physical security products in real-time.

## intersec

-  Commercial & Perimeter Security
-  Fire & Rescue
-  Cybersecurity
-  Safety & Health
-  Homeland Security & Policing
-  Live-Attack Zone & Pavilion
-  Security +
-  General Zone

## Organisations can now exhibit alongside the feature to network and engage with the audience visiting the Live-Attack Zone

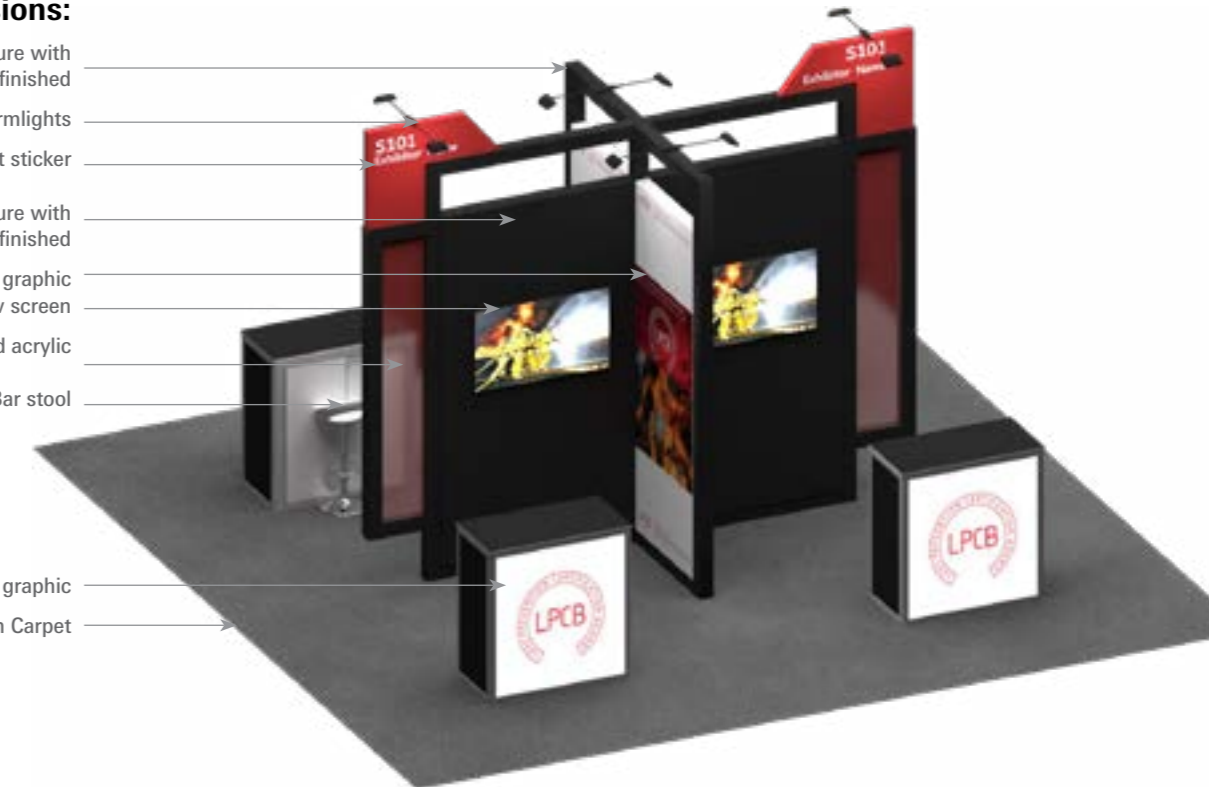

Intersec will provide a tailor-made exhibitor pod which will include a branded back wall, screen, power, counter and lockable cupboard. All you need to do is bring a laptop and relevant literature/ brochures.

As an exhibitor in this area you'll have full exhibitor status, access to show during build up and inclusion in the exhibitor list and show promotional activities.

You will also have complimentary subscription to Intersec premium app to book meetings, badge scanning and profile listing.
