

Briton 571 EL

Electromechanical
panic exit device

Secure Entrance.
Safe Exit.

THE PANIC EXIT DEVICE WITH ACCESS MANAGEMENT

Briton 571 EL is a panic exit device with an electrically powered opening mechanism, which can be linked with electronic outside access systems to increase your building's security levels and the performance of emergency exit doors, transforming them into effective "smart" entrances.

Highly Secure & Compliant

CE marked in accordance with CPR no. 305/2011/EU and EN 1125.

Access Control Solution

Can be integrated with existing access control systems including SimonsVoss and CISA access solutions

Easy to install alternative

Designed to be surface mounted and installed in minutes

Excellent cost efficiency

Low cost economical solution, with low power consumption.

The Briton 571 EL combines the mechanical features and benefits of the 570 Series touch bar panic exit hardware with electronic motorised control.

It presents innovative methods for opening doors, selecting access rights, providing total control, freedom and flexibility, including hierarchical authority and timings.

Features and benefits

- Non handed
- Suitable for doors from 1200 mm down to 600 mm
- Provides single point latching through to multi-point latching using optional pullman kits with vertical or side acting latches
- Suitable for use with existing access control systems
- Low power usage
- Power supply AC 12-20V (50/60 Hz), DC 12-24V
- Operating temperature -10 / +50°C
- Recommended power supply equal to or above 15 VA (not provided)
- Warning buzzer
- Timed latch withdrawal after opening, adjustable from 3 to 30 seconds
- Electronic dogging possible
- Protective anti-bacterial coating

Components

Briton 571.1.EL	1200mm motorised touch bar device
Briton 571.2.EL	840mm motorised touch bar device

Vertical market solution

The Briton 571 EL is ideal for high footfall buildings such as schools, offices and hospitals. It is often the case that employee and staff entrances will also be one of the fire exits for the building.
