

Intersec Future Security Summit 2019

Selection, Integration and Deployment of Technology to Enable Future Foresight Preparedness in a Dynamic Threat Environment

January 20 - 22, 2019

Dubai International Convention and Exhibition Centre, UAE

The Intersec Future Security Summit brings together security industry thought leaders, key decision makers, government authorities, regulatory agencies and key solutions providers to discuss, analyse and debate critical strategies for selecting, integrating and deploying technology to enable future foresight preparedness in a dynamic threat environment.

The three day summit focuses on futuristic technologies including artificial intelligence, internet of things, advanced security systems and the various challenges these evolving technologies presents to security managers. The summit also examines the changing dynamics of critical infrastructure protection, and emergency response and management. Featuring a series of panel discussions, case studies and roundtables, the summit will also highlight how government and private sector can collaborate to achieve a holistic security network and how innovative security systems can be seamlessly integrated into traditional infrastructures.

Authority (RTA), UAE

Conference Programme

CONFERENCE DAY ONE – Sunday, January 20, 2019

10:00 *Registration and Refreshments*

Future Foresight on Security

10:30 Opening Remarks by the Conference Chair

10:45 **Opening Keynote Address:** UAE Vision and Future Foresight in building a Safe and Secure Nation

11:00 **Keynote Address:** UAE's Plan for Innovation and Technology in Implementing AI in Security

11:15 Keynote Address

Brig. Khalifa Al Salies

Chief Executive Officer, Security Industry Regulatory Agency Dubai (SIRA), UAE

11:30 **Solutions Expert:** Security Paradigm of Technological Innovations in Artificial Intelligence

11:50 **Strategic Leadership Panel Discussion:** Security and Safety Planning for the Cities of the Future

Panelists:

Arif Al Janahi

Chief Operating Officer, Security Industry Regulatory Agency Dubai (SIRA), UAE

12:10 **Tech Talk:** Future of Global Security Industry: Security End Points Viewed as a Mode of Connection; Not Intrusion

Note: This is a working programme draft and the sessions' content, speakers, flow, duration and timings are currently being developed and subject to change.

Martin Gren

Co-founder, Axis Communications, Sweden

12:35 Prayer and Lunch Break

Artificial Intelligence

13:30 Strategy Session: Deploying a Flawless Security Infrastructure When Implementing Disruptive Innovations in Artificial Intelligence

- Protecting the Healthcare and Patient Information Infrastructure
- Integrating Access Control for Educational institutes and Universities' programme
- AI protecting the Banking and Financial transactions

13:50 Case Study: Employing Artificial Intelligence in Security Operations

- Implementation of facial recognition technology in UAE
- Experience sharing on Advanced Data Analytics at mass level
- Artificial Intelligence Surveillance Programme - 'Oyoon'

14:10 Deploying Smart Security Systems

- Effective Implementation of AI to reduce budgets in the long term
- Conducting a Valid Vulnerability survey as per facility requirement
- Imaginative solutions where AI can help
- How to move to an AI skilled environment
- Facial Identification and Data Analysis

14:30 **Panel Discussion:** Seamless Integration of Innovative Security Systems with Traditional Infrastructure

- Deploying a holistic solution to meet the needs of both security and process operations in an industrial organization
- Developing Integrated Security Strategy for your company
- Creating smooth integration with mobile technology and other interfaces
- Layered solution to connect process control with physical security

Panelists:

Stuart Rawling

Member Steering Committee, ONVIF, USA

15:00 Coffee and Networking Break

IOT and Intelligent Systems

15:30 Organising the data chaos - The impact of the new world of connected devices on the real world

Note: This is a working programme draft and the sessions' content, speakers, flow, duration and timings are currently being developed and subject to change.

Stuart Rawling

Member Steering Committee, ONVIF, USA

15:50 Cloud Protection and Data Security: Analysing Cyber Risks and Vulnerabilities Exposed to New Age Security Managers

- How Secure is the Cloud?
- Using Cloud Solutions in line with the Privacy Laws and Regulations
- Securing applications and data in the cloud

16:05 Intelligent Transportation Systems: Addressing Security Threats in Connected Intelligent Vehicles

- Public transportation media: where is the security element?
- Flying taxis and driverless vehicles: Are autonomous vehicles an infrastructure and public threat?
- Recent attacks on mobs in different cities utilizing modes of transport

16:35 *Closing Remarks from the Chair*

16:45 *End of Intersec Future Security Summit Day One*

CONFERENCE DAY TWO: Monday - January 21, 2019

10:00 *Registration and Refreshments*

10:30 Opening Remarks by the Conference Chair

10:40 **Welcome Address**

H.E. Khaled Al Mansouri

President, International Association of Emergency Managers (IAEM), UAE

Critical Infrastructure Emergency Planning

10:50 **Keynote Address:** Future Vision on Compliances and Standards for Protecting Critical Infrastructure and Assets

- Changes to the existing code of conduct
- Specific guidelines for emergency preparedness for Oil and Gas and Petrochemical Sector

11:10 **Strategic Leadership Panel Discussion:** Collaboration between Government and Private Sector for Holistic Security

- How can industry and government work on cohesive programmes with a collaborative approach?
- Better interaction and continuous exchange of ideas and reporting of incidents

Note: This is a working programme draft and the sessions' content, speakers, flow, duration and timings are currently being developed and subject to change.

H.E. Brigadier General Adnan Ahmad Fadi Olwan

Vice Chairman, Jordanian National Center for Security and Crises Management, Jordan

11:35 Counter Terrorism Operations: Protect and Prepare

12:00 **Expert Solutions:** Innovative Critical Infrastructure and Emergency Response Systems

12:30 *Prayer and Lunch Break*

Implementing Flawless Security

13:30 **Panel Discussion:** Expo 2020 - Physical Security and Security Networks

- Threat Identification and Emergency Response:
- Surveillance and Notification systems
- Public Safety: Incident Command and Control Centers
- Data Protection and Securing the Security Infrastructure

Col. (Retd.) Thafar Maaitah

Security Specialist, Dubai Roads and Transport Authority (RTA), UAE

14:00 **Panel Discussion:** Large Projects Development - Security to be Built-In the DNA & at the Inception Stage

- Inception of Security in the DNA of projects
- Designing a technology as per the project requirements
- Secure a site or an event by integrating security blue print

Moderator:

John Cowling

Regional Director, AcuTech Consulting, UAE

14:30 **Securing the Security Systems: How Technology Can Assist in Human Side of Things Without Posing a Security Threat**

- Integrated Access Control with Tasks Simplification
- Embracing Change in Security : Striving for new technologies
- Security systems to be seen as connection points between people than barriers
- Analysing Service Delivery of Security Systems in businesses
 - Customer mind mapping
 - Threat identification
 - Controlling thefts in retail

14:50 *Coffee and Networking Break*

15:15 **Planning and Implementing Security Strategies for Protection of Commercial and Retail Centers**

Note: This is a working programme draft and the sessions' content, speakers, flow, duration and timings are currently being developed and subject to change.

- Risk Assessment specific to each business or retail center and selecting appropriate solutions
- Developing clear safety programs, processes and procedures
- Guaranteeing security of merchandise, personnel, or customers by decreasing risk
- Network defense and cyber security as potential access points along with physical threats

Emergency Management: Response Preparedness and Rescue Operations

15:40 **Case Study:** Dubai Airports - Utilising Technology to Create Future World Class Security Systems

- Landside Security at Airports
- How technology can be utilized for threat identification
- Effective communication and emergency management

16:05 Crowd Protection in Public Places and Events: Security is Not Only a State's Responsibility?

- Spreading Awareness with incident specific drills
- What to do and how to behave in case of incidents

Jassem Al Suwaidi

Manager - Security and Safety Operations, Dubai Festival City, UAE

Amjad Alata

Senior Manager - Security and HSE, Emaar Entertainment, UAE

16:35 Threat Identification and Emergency Response: Preparedness and Planning

- Regulatory Requirements for emergency preparedness and threat management
- Emerging and Future Threat Identification and Management
- Profiling threats and hazards and potential impact
- Integrated planning, manuals and drills

Charanjeet Singh

Head of Group Fraud Risk & Investigation, First Abu Dhabi Bank, UAE

Crispin Webster

Chairman, OSAC Dubai, UAE

Crispin Fordham

Director- Security and Crisis Management, Petrofac, UAE

17:00 Closing Remarks from the Chair

17:15 *End of the Intersec Future Security Summit Day 2*

CONFERENCE DAY THREE: Tuesday - January 22, 2019

Note: This is a working programme draft and the sessions' content, speakers, flow, duration and timings are currently being developed and subject to change.

Strategic Leadership Insights: Creating A Culture of Security

10:00 *Registration and Refreshments*

10:30 Opening Remarks by the Conference Chair

11:00 Thought Leadership in Middle East on Security: Security As a Way of Life

- Developing Thought Leadership in Middle East on Security
- What is pushing the security forward?
- Involving top management in security initiative
- Inclusion of / Early engagement of Security in project development

11:30 **Panel Discussion:** Security Standardisation and Accreditation

- Accreditation and licensing of people, skills, technology, securing installers, consultants
- Value of these accreditations from different places or agencies
- Value of diversity in security standardisation
- Benchmarking level of security for a structure/site/people
- Diverse solutions for diverse markets

Rick Mounfield

Chief Executive Officer, The Security Institute, UK

12:00 Protecting the Global Supply Chain Infrastructure Within Your Organisation

12:30 *Prayer and Lunch Break*

SIRA Forum

14:00 Registration for the SIRA Forum

14:15 Technical Guidance and Interpretation of New Regulations in the Dubai Security Law

Eng. Arif Al Janahi

Chief Operating Officer, Security Industry Regulatory Agency (SIRA), Dubai, UAE

14:30 Q&A Session with the SIRA Team

17:00 *End of Intersec Future Security Summit 2019*

Note: This is a working programme draft and the sessions' content, speakers, flow, duration and timings are currently being developed and subject to change.
