

CP PLUS Secures Prism Tower, UAE

CP PLUS solutions help Credo Investments FZE acquire the required certifications for their upmarket project - Prism Tower with the latest state-of-the-art surveillance technologies.

Background

CP PLUS solutions recently secured The Prism Tower, one of the high end properties by the reputed Credo Investments FZE in Dubai. Being a new project, it needed to meet the SIRA requirements, an essential validation for all real estate projects in the country.

Mission

The management wanted a reliable security solution that will assist the deployed security personnel at the premise operate and monitor the property without any hiccups. Image quality and round the clock monitoring were the main requirements.

Solution

The premises required careful screening so as to determine the best locations and angles where cameras could be installed to monitor the maximum area without compromising on the footage quality. The choice of cameras, cabling,

and related equipment/ peripherals, also required careful evaluation.

After analyzing the locations and system requirements, the CP PLUS Solutions Team designed and developed IP solutions suitable to meet the client's requirement. IP solutions are an ideal choice when detailed clarity is required; it offers a compression of H.265. Installation is easier since the cabling requirements are significantly lesser as compared to analog solutions, which was best suited considering the expanse of the location. Further, the combination of cameras and NVRs chosen offered live monitoring in Full HD (@1080P) and efficient remote monitoring (@1080P/10FPS), which ensured distinct, hiccup free footage.

Result

The simple yet user friendly interface and operation of the new surveillance system was highly appreciated and commended by the security officials in charge, and the project concluded successfully. The HD video surveillance solution delivered great results, meeting client expectations successfully.

“Since it was a new construct, designing a solution didn’t pose much of a challenge. The project was concluded successfully to the client’s satisfaction”, said the spokesperson of Blue Lotus Technical Services LLC, the system integrator for the project.
