Accelerate Gender Diversity, Equity & Inclusion - Women in Security & Resilience

Diversity, equity and inclusion matters. Today we observe that women are making steady progress in the security industry. Organizations and men are extending full support wherever required. However, the security industry is still stricken by gender bias and traditional approaches to attract diverse talent for closing the gender gap. There is still more work to be done to advance women in the industry. The panel will explore the barriers and opportunities to accelerate gender diversity & women in security.
